What are we learning?

Theme of the Week:
Camping Fun

Fine Motor

We each made a beautiful butterfly with Mrs. Horne. We painted one side of the butterfly and then folded them in half. We loved the magic that we saw when we opened each one! We also made caterpillars with our names in title case so we can practice our names that way over the summer! We used crayons that are 1 ½ inches long so we really need to use a proper pincer grasp to print our letters. We also painted with home made fishing rods – a super fun hit!!!

Literacy Highlights

We told stories about camping experiences, fishing experiences and hiking experiences. Telling stories aloud or as we create drawings are great literacy skills to practice. We also worked on rhyming and clapping out the syllables in all of our names.

Math Highlights

We practiced more addition and subtraction. We counted bugs and fishing bait! What fun! We also were number detectives looking for really big numbers in our classroom.

Science:

We created a pond in a big bucket of water. We had creatures depicting the life cycle of a frog to play with ☺
