

Massachusetts V.I.P. Research Project Research

Step 2: Assigned May 14th

Your Massachusetts VIP is _____!

It is now your job to begin learning about this person. You will start this research at home. Be on the lookout for important facts about this person's life, achievements, and what they are famous for.

You will:

1. Find materials about your person. You may use books (the Fiske Public Library has a great selection), articles, or websites. A combination of sources and specific facts will be important when you begin your writing in class.
2. Fill out the attached graphic organizer. You will be looking for facts about this person's **early life** (date and place of birth, family information, education), **their adult life** (jobs, major events, did they have a family), and their **accomplishments and achievements** (what this person is famous for).
3. Bring in any printable sources (any information from websites or copied from books)

The completed graphic organizer and the printed research are due on May 25th.
