

SPECIAL DELIVERY

Dear Parents,

Our class service project for this holiday season will be to raise money to help needy children in the Norfolk County area. This opportunity is sponsored by the South Norfolk Council for Children, a group of volunteers who advocate for children who are less fortunate. These children have been identified by area human service providers.

Our class, as well as several others in the 5th & 6th grade, have decided to dedicate the two weeks around Thanksgiving to raise money for our special project. Please help to support your child's efforts in "earning" money to contribute. We would like the children to give their time to their daily chores and special projects around the house. Service is an important component of this project; encourage your child to try to "earn" his or her contribution. The funds raised will be used to purchase much needed and appreciated holiday gifts.

Once the service money has been collected, I will take a selected group of students to buy the gifts, and then another group of students to deliver them to the agency for distribution.

Thank you for all your help.

Sincerely,
Mrs. Bevilacqua
