

Sight Words (Trick Words)

Dear Families,

Attached are the first Sight Words/Trick Words that follow along with the Foundations program. These are important words for your child to recognize to help them with their reading. The children are not responsible for spelling these words. They will be posted on the word wall and children will be expected to use the word wall to help them spell the words correctly.

Many of these words are often difficult to sound out because they may have an irregular pattern. These are the words they will see in their reading books. Therefore, it is very important for your child to recognize these words by "sight".

I will send home the new sight words/trick words each week. You may want to make flash cards with them. You will then have a stack of flash cards you can use to review with your child. Please remember to continue to add each set of new words sent home, to the words that you already have.

Thank you in advance for helping your child learn these words! Practicing them for a few minutes each day will help your child to become a successful reader.

Games you could play to help your child learn them;

Concentration

Go Fish

Bingo

Tic Tac Toe

Make sentences using the words

Write a sentence and leave out a word and have your child supply the missing word,

Sincerely,

Mrs. McNeal
